

ALLA KRISHNA SAI REDDY

Vijayawada, Andhra Pradesh-521212 — +91 9542221188 — krishnasai2004reddy@gmail.com
 LinkedIn — GitHub — huggingface.co

PROFESSIONAL SUMMARY

Computer Science (AI/ML) graduate with hands-on experience developing Python-based AI/ML components, deploying REST API backends, and building end-to-end ML pipelines. Familiar with RAG architecture, LLM application development, and vector-based retrieval workflows using LangChain and Hugging Face frameworks. Deployed production-ready containerized APIs using FastAPI and Docker. Seeking to contribute to scalable enterprise AI development under senior engineering mentorship.

TECHNICAL SKILLS

Programming: Python, SQL, Java, JavaScript, HTML, CSS, Data Structures & Algorithms
AI/ML & Frameworks: LLMs, LangGraph, LangChain, Prompt Engineering, Hugging Face Transformers, AI Agents, RAG Pipelines
Model Development: Deep Learning, CNNs, Transfer Learning, Feature Engineering, Hyperparameter Tuning
Web & Deployment: FastAPI, Flask, RESTful APIs, Docker, Git, GitHub, Postman
Databases & Tools: SQLite, MySQL, Jupyter Notebook, VS Code, Google Colab, PyCharm

INTERNSHIP

Python Development Trainee — CodeTantra, Remote May 2023 – Jul 2023

- Developed modular Python components for ML data pipelines following Agile sprint cycles; delivered all milestones on schedule across a 3-month structured program.
- Automated data preprocessing and EDA workflows, reducing manual validation effort; performed root cause analysis and debugging sweeps to maintain error-free code outputs.
- Managed multi-branch Git repositories with peer code reviews and defect resolution cycles; authored project specification documents and progress status reports.

PROJECTS

JobJutsu AI – AI-Powered Career Copilot — Python, LangGraph, Streamlit, Docker, Hugging Face Spaces, Gemini
Live Demo: hugginspaces.co | **GitHub:** github.com

- Created an LLM-based system that analyzes resumes, pairs candidates with job descriptions, identifies skill gaps, and generates interview questions.
- Built an agent-based workflow using LangGraph for real-time task orchestration and decision-making.
- Deployed the application on Hugging Face Spaces using Docker for scalable career guidance.

AI-Powered Detection of Diabetic Retinopathy — Python, PyTorch, TensorFlow, Flask, OpenCV, SQLite
GitHub: github.com | **Publication:** [publication](#)

- Developed a ResNet50-based transfer learning model achieving 82% validation accuracy.
- Performed API testing, error handling, and regression bug analysis for reliable inference.
- Published research findings in IRJET (Volume 12, Issue 05, May 2025).

EDUCATION

Bachelor of Technology in Computer Science and Engineering (AI - ML)	2021 — 2025
Lovely Professional University — 7.09 CGPA	Jalandhar, Punjab
Class 12 (MPC) — Narayana Jr College, Vijayawada 91%	2019 — 2021
Class 10 (Science) — Ravindra Bharati Public School, Vijayawada 10.0 CGPA	2018 — 2019

CERTIFICATIONS & PUBLICATIONS

- DeepLearning.AI** — Natural Language Processing Specialization (Coursera)
- DeepLearning.AI** — Prompt Engineering for Developers
- [Publication]** "AI-Powered Detection of Diabetic Retinopathy" — IRJET, Vol. 12, Issue 05, May 2025
